

Overview

- Tamper-evident sealed .9 g packets
- Relieves minor skin irritations
- Clean affected area before application
- Apply in even layer

Treat minor skin irritations, itching, and rashes this Hydrocortisone 1% anti-itch cream packet. This anti-itch cream will help sooth irritations and keep those minor annoyances from becoming big problems. Keeping this extra layer of protection on hand is perfect for quickly addressing any mishap.

Each packet contains .9 g of cream that helps relieve and sooth slight burns. Simply clean the affected area and apply a small amount with your finger. When handling food, never use this cream in place of a bandage or wrap on an open rash or wound. For best results, always thoroughly read the directions and warnings on the box.
