

## Overview

SwabTek's Cocaine Test Kit offers safe, fast, presumptive testing for cocaine residue on any surface — no visible powder needed. The treated swab can detect trace amounts on items like tabletops, baggies, pipes, or hands.

Non-toxic and easy to use, the kit contains no acids or hazardous chemicals, making it ideal for use in correctional facilities, schools, and security checkpoints. Detects cocaine HCl, crack, freebase, and speedball mixtures.

## DRUG DETECTION

- Cocaine HCl
- Cocaine Freebase
- Crack
- Speedball (Heroin / Cocaine mix)
