

Overview

Maintain a clean and disinfected environment with Lysol lemon and lime blossom scent disinfecting wipes! These convenient wipes are designed to kill up to 99.9% of viruses and bacteria, including cold and flu viruses, Salmonella, E. Coli, MRSA, RSV, Staph, and Strep when used as directed on hard, non-porous surfaces. The wipes are also proven to kill the virus that causes COVID-19 in just 15 seconds and can be used against Monkeypox in accordance with the EPA's Viral Emerging Pathogen Policy, providing you with peace of mind. Suitable for use on various non-porous, high-touch surfaces, these wipes are easy to reach for when you need a quick and effective clean.

The pleasant lemon and lime blossom scent of these wipes enhances the cleaning experience, leaving behind a fresh fragrance. The easily accessible dispenser makes it simple for guests and staff to quickly grab a wipe whenever needed, serving as a constant reminder that cleanliness is your establishment's top priority. This bulk 800-count bucket provides a generous supply for high-volume users.
