

Overview

Perfect for locations needing to open cans on a consistent basis, this stainless steel base opens 2 to 3 cans per minute. In an operation where less than 50 cans need to be opened per day, this can opener is a great, versatile solution. It accommodates all sizes of cans, including #10 cans, ensuring that all canned ingredients are easily accessible whenever needed. Plus, its 8" long handle makes manual operation simple and comfortable.

The durable stainless steel base secures the can opener to a tabletop with screws (sold separately), while the plastic insert lets you make easy height adjustments. To make cleaning and maintenance as easy as possible, the can opener unit includes a removable knife and gear.
