

## Overview

**ASTM Level 3** offers the highest level of protection approved for medical use. Designed for comfort and reliability, these lightweight, pleated face masks feature a fluid-resistant outer layer, soft non-latex earloops, and an adjustable nose bar for a secure, contoured fit. With exceptional breathability and full ASTM Level 3 compliance, they are ideal for high-risk environments requiring maximum barrier protection.

- ASTM Level 3 – Highest FDA-rated medical mask
- Triple-layer pleated design for enhanced coverage
- Fluid-resistant outer layer for surgical and procedural use
- Soft, non-latex earloops for comfort during long wear
- Adjustable nose bar for a secure, custom fit
- Excellent breathability without compromising protection
