

Overview

Tuff-Ties are an amazingly effective alternative to cable ties. Tuff-Ties are made of braided nylon cord with a reinforced polycarbonate locking block, they are very secure and nearly indestructible. Extremely compact, Tuff-Ties can be carried in your pocket or stashed in the bottom of your handcuff case.

- Tuff-tie is used by thousands of correctional and law enforcement agencies around the world.
- Pre-threaded - ready to use and apply. Has a double locking feature.
- Unlimited shelf life - Tuff-Tie is not affected by exposure to sunlight, temperature, or environmental conditions.
- Flexible - Tuff-Ties will not cut into skin or cut off circulation if applied properly.
- Lightweight and easy to carry - TuffTies won't tangle in your pocket.
- Non-metal teeth will not rust or corrode. The poly block is virtually indestructible.
- Designed by a police officer for law enforcement use.
- Manufactured by a leading plastics company under strict supervision.
- Every Tuff-Tie unit is tested prior to sale. Made in USA.
- Currently available in black only.

Tuff-Tie Specifications:
